

MARBELLA II

The Marbella II is a spacious 2,683 sq. ft. one story home designed to fit on a narrow home site. The optional pool bath off the covered lanai makes this plan pool-ready. The study can also be used as a 5th bedroom. The master suite has great privacy, lots of closet space and a large master bathroom. The Marbella II is designed with a side entry garage making it attractive to build in deed-restricted communities where front entry garages are not permitted.
